

“Quarter” Mile Challenge

Can We? Yes, we can! Start bringing in quarters to school. The jars are at each campus and will be filling up to reach our goal.....1 mile of quarters!

Will We? Yes, we will! Teachers are having the students collect data of the quarters and keep track of how much we've collected and stats of where we are at.

Are We? Yes, we are! We are very excited and looking forward to a huge celebration in May! This is a shared challenge with sister schools Divine Savior and CPES. The children will be doing so much from now until then working together to achieve this goal.

Do We? Yes, we do! We want to make this happen! Let's all get excited about this and possibly break a record!

*More information regarding this event and how you can help along the way can be found on the following websites: www.divinesaviorschool.org or www.cpesonline.com or sharingavision.net by the end of January and will be updated monthly.
